

These were all of the episodes I managed to get. I can't get the other episodes because they are blocked by a college in New Zealand and only allow staff and students from that college to watch it, which is impossible if you don't live in New Zealand. The other reason why it's to get the Maori dub is because a YouTuber named Rytoku used to give a couple of people some Maori episodes. I didn't have the chance to talk to him so he is gone from YouTube. But Leon was able to send me some episodes which were owned by ISBSP. So big thanks and credit for Leon for giving me some of the episodes. Another reason is that it doesn't air anymore on Maori Television anymore. So, enjoy these Maori episodes.
